

Data Science & Analytics, MS

Modality

On Campus

Program URL

<https://analytics.georgetown.edu/>

The Master of Science in Data Science and Analytics provides students with rigorous training in analytical, computational, mathematical, and statistical methods and models to prepare them for careers in data science and analytics. Students are provided opportunities to create stories and visualizations around real-world data sets and current issues facing the world.

Academic Policies

The academic policies and procedures of the Data Science and Analytics program are those specified in Georgetown University's Graduate Bulletin.

Requirements

Program Requirements

Students must complete 30 credits and maintain a cumulative GPA of no less than 3.00 to graduate. Full-time students can complete the degree in 16 calendar months.

Degree requirements include:

- 15 credits of core courses (five classes) that are designed to provide students with a solid foundation in data science.
- 15 credits (five classes) of electives that allow students to learn tailored skills, helping them apply data analysis to fields of interest.
