The Master of Science program in Economics offers intensive training in the more technical areas of economics. It is a certified STEM degree program structured such that a full -time student, with the necessary preparatory background, can complete the course of study in two academic years.

Academic Policies

The academic policies and procedures of the Economics program are those specified in Georgetown University's Bulletin and the Economics Department handbook.

Requirements

Program Requirements

Students must complete 45 credits and maintain a GPA of at least 3.000 in order to graduate. The distribution of credits is as follows:

Code	Title	Credits
ECON 5551	Microeconomics	3
ECON 5554	Data Analysis	3
ECON 5553	Econometrics	3
ECON 5552	Macroeconomics	3
The remaining 33 credits are electives offered by the Economics Department.		33
Total Credits		45
