

Math & Statistics, MS

Modality

On Campus

Program URL

<https://mathstat.georgetown.edu/graduate/>

The primary mission of the M.S. in Mathematics and Statistics is to prepare students for professional careers in disciplines which make use of the mathematical and statistical sciences. The curriculum is intended for individuals who have strong backgrounds, but not necessarily baccalaureate degrees, in mathematics.

Academic Policies

The academic policies and procedures of the Mathematics and Statistics program are those specified in Georgetown University's Bulletin.

Requirements

Program Requirements

Students must complete 30 credits to earn the Master of Science degree. The course requirements are as follows:

Code	Title	Credits
MATH 5051	Probability Theory & App	3
MATH 5052	Deterministic Math Models	3
MATH 5151	Statistical Inference & Model	3
MATH 5152	Numerical Methods for Data Sci	3
6 Electives		18
Total Credits		30
